DETAILED ACTION

Claim 5 is objected to under 37 CFR 1.75 as being a substantial duplicate of claim 4. When two claims in an application are duplicates or else are so close in content that they both cover the same thing, despite a slight difference in wording, it is proper after allowing one claim to object to the other as being a substantial duplicate of the allowed claim. See MPEP § 706.03(k).

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(a) the invention was known or used by others in this country, or patented or described in a printed publication in this or a foreign country, before the invention thereof by the applicant for a patent.

Claims 1-4, 6-20 are rejected under 35 U.S.C. 102(a) as being clearly anticipated by U.S. Patent No. 6,266,013 to Stilp et al.

As per claims 1 and 9, Stilp et al. disclose memory that comprises mobile station current position information and a controller capable of determining the geographic location information (fig. 2F).

As per claims 2 and 10, Stilp et al. disclose a position locator (col. 28, line 61 to col. 29, line 16).

As per claim 3, Stilp et al. disclose a global positioning system receiver (col. 9, lines 38-46).

Art Unit: 2132

As per claims 4, 6 and 7, Stilp et al. disclose a controller capable of determining the geographic location (col. 29, lines 3-16).

As per claims 8 and 16, Stilp et al. disclose these features (col. 41, lines 57-63).

As per claims 11-14 and 18-20, Stilp et al. disclose these features (col. 41, lines 42-63).

As per claims 15 and 17, Stilp et al. discloses these limitations (fig. 2C-1).

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
